

## CFA Genealogy Panel – 2012 Annual Report

217 Genealogy Panel cases were logged in 2012. Full details from each case are on file and can be requested by email from [ClaudiaBrocato@ChandlerFamilyAssociation.org](mailto:ClaudiaBrocato@ChandlerFamilyAssociation.org)

CFALD refers to the CFA Lineages Database. CFALD reports were shared with inquirers when appropriate, and DNA testing suggested if a suitable subject is available. Rows shaded gray at top indicate cases which have been carried over from 2011. CFA membership was encouraged for each inquirer.

“New” in member column indicates the inquirer joined the CFA about the same time their query was submitted to the GP or as a result of the GP’s efforts. CFALD refers to the CFA Lineages Database. DNA Group Number in bold indicates an actual DNA testee or close relative of testee. DNA Group Number with a question mark (?) indicates a supposition of genetic group.

Visit the Chandler Family Association website at [ChandlerFamilyAssociation.org](http://ChandlerFamilyAssociation.org) for information about the Genealogy Panel, the Chandler DNA Project, the Genetic Chandler Families, and more.

NG	Allen (Allan) Chandler (b 4-10-1812, d. 1887) married Temperance Davenport? They lived in The Ware Place, South Carolina (first called Chandler, South Carolina), and ran the Chandler School. Allen's son was John W. Chandler, who married Mary Jane (Molly) Mattison. What is Allen's ancestry?	Yes	<b>7A</b>	Panel and several researchers have discussed this case at length and correspondence continues.
DH	William Chandler born 1790, possibly married to Elizabeth, had sons Robert born 1811 and Joseph born 1812. Came to McNairy County, TN. William left NC between 1820-1830. He had 16 kids. Robert had 20!	New		Not able to find these people in CFALD. Advised inquirer to seek a male Chandler relative for a DNA test.
216	John Chandler, g-grandson of John born 1600, is the subject of this query. We have tracked back to a John born in 1752. His father may have been John born in 1729.	No	<b>2?</b>	The "JRR John" line ( <a href="#">genetic Chandler family 7A</a> ) includes John born 1600 in England > Robert 1629 - 1669 VA > Robert 1654 - 1720 VA > John 1690/1 - 1747 VA > John 1718 - 1776 > John Allen born 1757 > no descendants known. This is not the same line as John Chandler born 1752 in Lunenburg Co, VA whose ancestry we have as William born VA 1654 - 1729 > William born 1675 > William 1696 - 1748 > William born 1728 New Kent Co, VA > John born 1752 Lunenburg Co, VA (genetic Chandler family 2). We do not have a John Chandler born in 1729. More information requested, but nothing further from inquirer.
217	A. B. Chandler (1840 – 1923) from Vermont was a telegrapher in the War Dept. during the Civil War. We have his journals from 1859-1920. Was he a member of	No	<b>9</b>	Albert Brown Chandler was not only a telegrapher during the Civil War, but also became very successful in the telegraphy business and was president of the Atlantic and Pacific Telegraph Company

	Chandler family 9?			from 1879 to 1882. He was a member of genetic group #9, descendants of William and Annis Chandler who migrated from Hertfordshire, England, to Roxbury, Massachusetts in 1637. Nothing further from inquirer.
218	Lax / Lacks / Locks family from Halifax County, VA, intermarried with Chandlers. Will of William Chandler mentions his "daughter Susanna(h?) who married William Lax." William Lax's (1727-1783) will mentions his wife Susanna Chandler. Christening records exist of Susanna and her father William Chandler from St. Peter's Parish Church. Is William the son of Robert Chandler, Jr., of New Kent County? A document indicates Susanna was the sister of Frederick Chandler. William Lax and Susanna had sons named Joel and Timothy. Apparently, William Chandler, his 3rd wife and his son Frederick (Susanna's half-brother) moved to Halifax County by the 3rd quarter of the 18th century. William and Susanna's son Timothy fought and died in the Revolution.	New	7A	CFALD confirms that Timothy was Susannah's brother and Frederick her half-brother. We asked for a copy of the Chandler christening records from St Peter's Parish church. Susannah's father William (1693-1779) was the son of Robert Chandler (1654-1720), grandson of Robert b abt 1629-1669 and great-grandson of John Chandler b 1600 in England. The younger Robert married Elizabeth Palmer (b abt 1664 King William Co., VA, died 1745).
219	Daniel Chandler was born VA, probably about 1760 to 1770. Inquirer provided PDF with two generations of Daniel's descendants.  Upon request, inquirer sent a GEDCOM file and replied: Daniel Chandler, the son of Joel, who died in Granville County NC about 1798 is not the same person as my Daniel who died in 1843 or 1844 in Grainger County, TN. My Daniel Chandler was living in Franklin County, VA, as late as 1800 and was on a tax list in Grainger County, TN by 1814.	New		CFALD indicates Daniel is a descendant of John Chandler b 1600. Lineage: John > Robert > Robert > Joell > Joel > Daniel. We provided excerpt on Daniel from "Chandlers in the American Revolution" special edition of the CFA newsletter. Daniel Chandler's ancestry is a knotty problem that will require a great deal of unraveling. We are unable to solve it at this time. CFALD has a Thomas Chandler, son of Daniel Chandler and his first wife whose name is unknown, who married Hannah Fletcher on 27 August 1818, the date you specified. We have his birth year as 1796, the year before Daniel's marriage to Margaret Roan(e).
220	James Chandler (1790), Sevier, TN >William B Chandler (1820-1860) > John Kiker Chandler (1852-1948) > Ollie D'Esther Chandler (1895-1985). Which genetic family is this?	Yes	8	Male Chandler cousins have tested as <a href="#">genetic Chandler family #8</a> . You will find reference in the USA section to DNA testee #58353, who shares part of inquirer's lineage. DNA places your Chandlers clearly within genetic family 8, but when we look at the Chandlers who are said to be your earlier ancestors they are also claimed by a different genetic family. We hope to resolve the conflict in the future.
221	Violet Chandler and her siblings were orphaned in 1899. At some point Violet went to Wales, where she married in 1918. Is there any way to find out more?	No		England and Wales censuses for 1911 do not include anyone resembling your 16 year-old Violet/Vinie/Viny/Viney. The man she would marry (in Wales in 1918) is still living in Reading in 1911. Possibly she was in service to someone who was not careful about recording employees on census returns. Unable to help further.
222	James Chandler Hughes was born Oct 17, 1841 in Chistlehurst, Kent. He was baptized Nov. 7, 1841 in	No		Customarily when an unmarried woman gave a surname as the second forename of a child at baptism, she was expressing her

	Chistlehurst Parish Church. His mother was Charlotte. Father's name unknown. On James's marriage certificate he states his father was a carman named Charles. James passed away Nov. 30, 1921 in St. Pancras, London. He married Caroline Skinner June 3, 1869 in St. John's Church, Waterloo, Surrey. Caroline was born Aug. 1, 1848, to Thomas Skinner and Maria Winter in Walworth, Surrey. Inquirer has 1861, 71, 81, 91 and 1901 census for James Chandler Hughes. Inquirer asks, "Could you please help me in some way to figure out where the 'Chandler' came from?"			<p>belief that that was the surname of the father. Sometimes she would give an even clearer signal using the first forename of the alleged father as well. In this case we know that James Hughes stated that his father's name was Charles. The civil birth registration of James Hughes in the 4th quarter of 1841 did not include Chandler as a second forename. A small correction - the place name is Chislehurst.</p> <p>In the 1851 census, we found a Charles Chandler age 37, no recorded occupation, living in and born in Crayford (only a few miles from Chislehurst). He is lodging in the home of George Farman, a fishmonger aged 35, born Crayford, and his family. Charles Chandler was not found in the 1841 Census, but on examining the Crayford entries in that census we found a number of people named Farman and Foreman and several named Chandler and Shindler (an uncommon variation of Chandler). Two households include both Chandlers in Faremans, further evidence of close relationships between Chandler and Far(e)man families.</p> <p>Henry and Ann Chantler (Chantler and Chandler were regularly interchanged in Kent) had son Charles baptised at Crayford on 21 April 1811, almost certainly the Charles Chandler who was living with George Farman in 1851. It is likely that this Charles Chandler, son of Henry and Ann Chantler, was the father of James Chandler Hughes.</p>
223	<p>Joseph Chandler (b Feb 4, 1724/25 in New Kent, VA and d. Sep 28, 1805 in Caswell, NC) who married Nancy Ann Atchison – a descendant of this couple is a family finder (FTDNA) match. Inquirer's brother had Y-DNA test (67 markers) and also FTDNA. Lineage provided by inquirer: John Chandler b 1600 ENG &gt; Robert Chandler b c 1629 VA &gt; Robert Chandler b 1654 VA &gt; William Chandler b 1693 VA &gt; Robert Chandler b 1729 VA &gt; John Chandler b 1754 VA &gt; Orrill Chandler &gt; Robert Tunstall &gt; Robert Lee "Bob" &gt; James H. Chandler. Inquirer has documentation for John Chandler and Caty Tunstall and for John Chandler marrying Caty Irby.</p> <p>Response from inquirer: "If your John never married either of the two Caty's then I now know for sure that he was not my John."</p>	Yes	7A	CFALD has James and Nancy, but her maiden name in CFALD is spelled Atkinson. Of course it is possible that Nancy's name was indeed Atchison. CFALD reports were sent for ancestors of Orrill and descendants of his father John. Provided contact information for a researcher with Robert Chandler born 1729 as a common ancestor and invited inquirer to exchange information with him.
224	New member was contacted asking for lineage. He responded with lineage that disagreed with CFALD.	New	7A	Reports from CFALD were sent and collaboration invited. Probable lineage: JRR > Joell Chandler b 1683 VA > Robert Chandler b 1720 VA > Bailey Chandler b 1751 VA > Robert Chandler b 1775 NC > Robert Bailey Chandler b 1820 GA > Alonzo Harris Chandler b1856 > Eron Jesse Chandler b 1899

225	Thompson Chandler b 1811 > Sylvester Augustus Paris Chandler b 1849 > Arthur Paris Chandler b 1873 > Martha Ellen Chandler b 1917 > Sara(h) Patricia Tinsley New member provided ancestry, believing she was in Group 7A but the generations of which she was certain are members of Group 11.	New	11	Provided reports from CFALD, pointed inquirer to <a href="#">Group 11 page on website</a> , and invited her to bring this family up to date in our records.
226	Inquirer sent ancestry back to James Chandler b 1761 NC, and proposed that someone in the past confused John W Anthony and John Coley Anthony, plus picked up Reuben Anthony b 1848 (married Yarborough, with daughter Paralee). Reuben Anthony b 1848 is listed in John W Anthony's 1860 Jackson Co., GA, household. "It looks as if Reuben Anthony is from the Anthony/Davis line, rather than the Anthony/Chandler line. I do not believe Reuben Anthony is a Chandler descendant."	New	7A	Inquirer's mother was in CFALD so reports were sent. Lineage in CFALD: John > Robert > Robert > Joseph > Joseph > James M. born 1761 NC > Elizabeth Chandler b 1798 GA > Martin C Anthony b1833 GA > George Washington Anthony b1861 > Susan Anthony b1891 > Betty Jordan Corrections from inquirer have been added to CFALD.
227	Calvin Conant Chandler of Chandlersville, OH, married Eliza Ann Hale, b 1820 in Pennsylvania. Inquirer wants information about Eliza Ann and her parents.	No	13	Calvin C. Chandler was a descendant of <a href="#">Edmund Chandler b c 1588</a> , a member of the Pilgrim Fathers who were harried out of England by King James, spent some time in Leiden, Holland, and migrated to the New World. Unable to find Eliza's parents.
228	John Chandler, b in 1863 probably MA, married Lucy Brigham Foster in 1888.	No	9	This John Chandler descends from William and Annis Chandler who migrated from Hertfordshire, England in 1637 and settled in Roxbury, Massachusetts.
229	James A. Chandler, unknown dob or dod, born in TX > Edgar James Chandler b Jan 11, 1879 TX d. 1925, Washington AR > Harvey Stephen Chandler b Jan 10, 1905 Eureka Springs, AR d. Oct 9, 1991 Fayettville AR > Edgar James Chandler b Apr 28, 1924, Eureka Springs, AR	New		Edgar James Chandler states in more than one census record that his father was born GA, not TX. James A. Chandler's census record for 1880 also says he was born GA. Without more information no connection could be made in CFALD. After collaboration, the following lineage was listed: ? Chandler b SC > James A. Chandler b TX > Edgar James Chandler b 1879 TX (or GA) > Harvey Stephen Chandler b 1905 AR > Edgar James Chandler b 1924 AR
230	Richard Chandler b abt 1765 VA > John Chandler b 1813 TN > James Clark Chandler b 1857 TN > Robert Roy Chandler b 1891 TN > Ray Jones Chandler b 1918 TX. Would like to make connection.	New	7A	Because your DNA is known to belong to <a href="#">Group 7A</a> , we should link your Richard Chandler (b 1765 VA d abt 1834 Blount Co, TN) to a Group 7A father in CFALD. However, an earlier researcher has that Richard as the 12th child of Isaac 1732-1797, and some other descendants of that Isaac have DNA-tested into a different group (#2). It is possible that a Chandler family hundreds of years ago adopted one or more orphans. An adopted male child would be the progenitor of a new genetic Chandler family. If we find Group 2 DNA Chandlers in England, that will indicate adoption is unlikely and the lineage of American Group 2 has been incorrectly researched. CFALD now attributes 7A DNA to Richard and all his Chandler descendants but does not link Richard to any parent.

It appears that citizens, including Judah, from Machias and nearby towns were not part of organized militia and that they spontaneously went after the <i>Margaretta</i> . Several websites about the <i>Margaretta</i> and Machias were shared.
232	William Burns was born 1756 in Halifax, VA; his wife, Nancy Chandler was born April 22, 1761 in VA. Her parents were Joel Chandler born ca. 1740 in Henrico, VA, died Nov. 1800 in NC, and Jane ___. There are Revolutionary War records for a Joel Chandler and DAR records for a Joel Chandler of NC.	No	7A	CFALD indicates Nancy Chandler born April 22, 1761, daughter of Joel born 1740, did not marry William Burns. The Nancy Chandler (born 1772) who married a William Burn(e)s was the daughter of William Chandler born 1730. Sent CFALD reports on the William Chandler line and invited more discussion.
233	Maternal grandfather: Henry Lafayette Chandler b1887 Texas – 1905 California.	New		Parents of Henry Lafayette Chandler were John L Chandler born AR in 1853 who married Frances, a Texas girl, about 1883.
234	Inquirer has a small red book from the 1850s-60s called "Boquet Album," filled with notes, poems and drawings for Rebecca A. Lunbeck. The authors of the notes include her (sibling?) Sam, friends Sallie Blain, Molly from Piketon Ohio, Millie, Bell, Maggie, Sue and other various names. The cities listed include Chillicothe, Kingsville, and Piketon Ohio. In between the pages was an obituary for Mrs. Alice Johnston who lived in Philadelphia but was a long time resident of Springfield and Kansas City, Missouri. A letter from Rebecca Lunbeck was found online: <a href="http://tinyurl.com/d5gocwp">http://tinyurl.com/d5gocwp</a>	No	7B	This family is Group 7B in the Chandler DNA Project and is called "the George & Jane line." They left Wiltshire in England with their family (except their eldest son) for the New World in 1687. Sarah Chandler Blaine born 1838 is the Sally Blaine to whom Rebecca A Lunbeck 1828-1907 wrote. Sally married Stephen Slone in 1865. We are unable to see any relationship between Rebecca and her rather younger correspondent Sally. Sam is a sibling (as you suggested) - i.e. her brother Samuel Gibson Lunbeck 1831-1871; Bell could be her sister Isabella Jane born 1823; and Sue could be Susan formerly Carson, who married Rebecca's brother William Henry.
235	Whitfield Chandler (b Oct 1782 VA; d 22 Feb 1874 Abingdon, Knox, IL) and Jesse Chandler (b 19 Dec 1813 in Springfield, Fayette, IN; d 21 Jul 1893 Terre Haute, Henderson, IL – was Whitfield was Jesse's father? The 1810 Census from German Township, Springfield, PA, shows Whitfield Chandler married, with two daughters between the ages of 0-5 years of age. This was 3 years before Jesse was born in Springfield, Fayette, PA.	Yes		The hypothesis that Jesse was the son of Whitfield is quite plausible, but we could not find proof. The New FamilySearch (NFS) system of the LDS Church does show Jesse as the son of Whitfield. We suggested inquirer follow up with the contributors. NFS shows Jesse had a brother Alfred 1810-1876, which fits with Whitfield's family adding two children under 10 in the decade 1810-1820 according to censuses. Information from NFS should be validated by inquirer.
236	William Chandler married Lucy Lambert Hale in 1874, as related in "Killing Lincoln" by Dugard & O'Reilly. Is this William Chandler in the George and Jane Chandler lineage? Lucy Lambert was formerly John Wilkes Booth's fiancée.	No		Panel believes this was William Eaton Chandler. Neither WEC nor his father Nathan S Chandler appear in the George and Jane lineage, nor do they appear in the other two major lines - descendants of Edmund Chandler of Duxbury MA and of William & Annis Chandler of Roxbury MA. The line of Roger Chandler of Concord was also checked, again without success. There are a number of trees online which include WEC and his father NSC, but none which ascend any higher. Encyclopedia Britannica has "William Eaton Chandler (born Dec 28, 1835 Concord NH - died Nov 30 1917 Concord), American Politician and Republican Party official who played a major role in swinging the disputed 1876 presidential election to Rutherford B Hayes." Rutherford Hayes was himself a descendant of William & Annis via Chloe Chandler,

				his great grandmother. There seems to be no family connection.
237	James Chandler had sons Paul and Berman. Paul's son was Jimmy, and Berman's son was Bobby. Inquirer believes there is a connection to "Happy" Chandler.	No	4?	Happy Chandler and those in his family are members of Genetic Chandler Family #4. Inquirer was pointed to the Group 4 story on the website, especially Group 4's Thomas, who had a son James.
238	Thomas Chaloner, born 1840 in Wexford, Ireland, was a member of Genetic Chandler Family #58. Before he emigrated from Ireland he was known as Thomas Chaloner.	New	58	Genetic family #58 is definitely the line to which you refer. We had did research for a descendant named Challoner in Ireland, and we were able to put him in touch with an American descendant. This inquirer was already in touch with the Irish correspondent.
239	Thomas Chandler b abt 1838 is believed to be from the Reding, Berkshire, area in England. Thomas was perhaps a sailor, sea captain, or a ship merchant. Chandler cousin has taken DNA test at Ancestry – can those results be translated to FTdna?	New	7?	We responded with information on a couple of possible candidates for this Thomas Chandler and asked for more information on inquirer's lineage and also info on possible matches about which he wrote. Inquirer belongs to Group 7 but don't know which sub-group just yet.
240	New member submitted lineage and asked questions about DNA result.	New	7A	We had concerns about the lineage presented by this new member. A report from CFALD was sent. Adjusted lineage: John > Robert > Robert > Joseph > James > Shadrack > Jedediah > William Mackey > James Augustus > James E. > Dewitt
241	Hannah Chandler b abt. 1756, in England - her marriage to John Taylour (Taylor) at Rotherfield, Sussex, England on 12-23-1779 is the first record of her. Her children are: John, Joseph, Jesse, George, David, William and Ann Taylor. Children were all baptized at St. Deny's Church in Rotherfield. Jesse Taylor, son of Hannah and John, and wife Elizabeth came to NY in 1835. Family history tells the Taylor family was from primarily Kent and Sussex. Weald Ancestry forum says John Taylor married Hannah Chandler at St. Deny's, but John's father is listed as Nicholas.	New		Extracts of English parish records show that Hannah Chandler and John Taylour were married on 24 December 1779 at Rotherfield. There was a baptism of a Hannah Chandler, daughter of Edward and Ann(ie) Chandler at Speldhurst on 26 July 1767. The birth of Hannah Ann Chandler occurred on 23 February 1766. If this is your Hannah, she would have been nearly 14 at the time of her marriage. She had a sister Sarah who was christened at Speldhurst on 31 July 1768. Their father Edward may well have been the Edward, son of Ward and Mary Chandler, who was christened at Speldhurst on 5 January 1748. Ward could be a diminutive name for Edward."
242	William and Maria Chandler married 28 February 1853 in San Francisco. Australian inquirer's family had always thought they originated in London. Inquirer provided a document with Queensland and New South Wales births, deaths, and marriages.	No		We found no trace of the g-g-grandfather's marriage in San Francisco in 1853 and cannot find him in the US Federal Censuses of 1850 or 1860. There is no suitable William Chandler in the 1852 California State Census. There was a servant surnamed Chandler with no recorded forename, aged 33, born in England and living in San Francisco, having previously lived in London. This would bear out the English link. However, he is recorded as a Negro. It is not clear from the census record for whom he was a servant.
243	New member submitted following Group 7A lineage: John > Robert > Robert > Joell > Joel Chandler > John Chandler > William Boyd Chandler > William Taylor Chandler > Jesse W. Chandler > Jesse Ray Chandler.	New	7A	After several email exchanges, this line was found in CFALD with some differences in names. Corrected lineage: John > Robert > Robert > Joell > Joel > John B Chandler b 1775 > William Bryce "Long Bill" Chandler b 1820 > William H. Taylor Chandler b 1848 > Jesse B Chandler b 1894 > Jesse Ray Chandler b 1927

245	Frances Alexandra Chandler b c. 1834 in OH (possibly in/near Henry County, Liberty Township) married George Carver b 1812-14 in NY. He was a Civil War Captain or Major (1st wife: Margaret + 2/3 sons) In c. 1863-4, they lived in Texas, OH (believed in/near Henry County). There were three daughters: Cora, Anna, and Daisy Luella who married Frederick Gordon Ellinwood, Sr. Frances' father was Philo Chandler from Vermont; mother was ? Green from Pennsylvania.	New		Panel responded with questions and suggestions for further research;
246	William Chandler (born 1693 in New Kent County, VA; died 1779 in Halifax County, VA) - Inquiry from 2011 brought forward to provide reports from CFALD to descendant of above William Chandler who plans to submit GEDCOM for CFALD.	Yes		Three CFALD reports were sent and more were offered if needed.
247	John Chandler b 1600 had a son by the name of Robert Chandler. Is there proof of this?	New	7A	There is no ABSOLUTE proof that Robert was a son of John Chandler. CFA has accepted the research findings of Joe Chandler, who assembled a substantial body of circumstantial evidence published in a series of articles in "Tidewater Virginia Families."
248	James Forest Chandler of Arkansas – searching for his ancestors. He and his brother left home around turn of the century. The brother (name unknown) was killed by a bear on the journey. James ended up in Texas, married, and had five children.	No		A Texas death record was found for James Forest Chandler (born 1874 in Pine Bluff, Jefferson Co., AR), son of "Isace" born TN. Various census records show Isaac as born AR or TN, with a wife Rochia or Rodisa (possibly Rhoda Saffin or Saffire Crouse who married Issac L or T Chandler 1855 in Dallas County, AR). Some sources have this Issac as the son of Parks Chandler. This line has caused controversy for years.
249	William Chandler (1617 - 1701) – Inquirer provided her descent from this William by his daughter Hester, m. Gage, and her daughter Naomi, m. Bedford.	No		Either a paper trail to determine William of Newbury's ancestry is non-existent on this side of the Atlantic or has not been found. Some ancestry.com trees incorrectly claim William of Newbury is the son of William and Annis Chandler of Roxbury. The best way to determine ancestry is to find a candidate for the DNA Project.
250	Daniel Dial Chandler (b 1783, d 1843 Sumter District, SC) – looking for confirmation his father is either Samuel or Lt. Thomas Chandler.	Yes	5	We have Daniel Dial's father as Thomas Chandler 1755-1818, and we have the father of that Thomas as Samuel 1733-1786. Some Group 5 participants claim Samuel's father was John born 1697 in NC, but that John is claimed by a different DNA Group, so we have not put that link into our records.
251	William Chandler, great-grandfather, lived in Welling, Kent, probably around the 1880's/1890's. He migrated to Capetown, SA, and there married Louisa Eckard. They are the parents of Raymond Chandler born 22 June 1896. Inquirer has searched English census records and cannot see William recorded.	New		A William Chandler aged 27, so born about 1863, a miner, left England for Cape Town aboard the <i>Duart Castle</i> on 18 March 1890. A William Chandler aged 33, so also born about 1863, a clerk, left London for Cape Town aboard the <i>Maori</i> , whose ultimate destination was New Zealand, on 10 June 1896. These two could have been the same man at different stages of his life. Information from English census records was also provided and asked inquirer

				several questions to facilitate research.
252	Levi Chandler born in 1802 and lived in Mitchell County, NC, had a daughter Jane Caroline who married a Cox. A will indicates Levi's parents were John and Elizabeth Chandler.	No		We have part of the story and plenty of questions to inspire additional research. Levi Presley Chandler born 1802, with parents John and Elizabeth, is in CFALD. Searching for Elisha Chandler born 1732 (Levi's ancestor according to CFALD) in our newsletter archives, we found an article about "Toe River Valley Chandlers." Returning to CFALD with information from the article, we found Elisha Chandler born 1721 – but descendants of Elisha and the ancestry of Levi do not currently connect in the database. Possibly you can help us make that connection – or disprove it. Reports from CFALD and the "Toe River Chandlers" article were provided.
253	Dow Lorenzo Chandler is great-grandfather. There is Cherokee Indian in the family. The family Bible says Dow's parents were Indian – one full, the other is 3/4 or 1/2. Help requested in proving native side.	No		We cannot provide additional information concerning the ancestry of Jonathan Chandler. You mentioned Little Chandler is thought to be 1/2 to full blood Native American; however, there is no evidence that Little's mother -- Elizabeth Elrod -- had Native American heritage. Jonathan would have to be full blood Native American for Little and his sister Mahala to be half blood, so it appears unlikely that they were 3/4 to full blood. A search of the 1860 Cherokee Census did not disclose any information supporting a connection with your family. A link to a website which specializes in Native American (Indian) genealogy was provided: <a href="http://www.accessgenealogy.com/native/">http://www.accessgenealogy.com/native/</a> "
254	Joel Chandler's father was Joel Chandler b circa 1685 VA. Is this correct? Do you have other information about this Joel? I am working on a DAR lineage to the second Joel Chandler.	New	7A	CFALD reports were provided and information from Chandlers in the American Revolution February 1997 newsletter article. Those researchers did not find any evidence of service in the Revolutionary War by Joel born 1740.
255	James Milton Chandler was b about 1851 Boston, MA and d 1917 Tolland, MA. His father is James Franklin Chandler b 1884 Tolland, MA and d 1965 Westfield, MA. Inquirer's father was David W. Chapman b 1931 Westfield, MA and d in 2005 Bellows Falls, VT.	New		Panel suggested that James Madison Chandler found in "The Descendants of William and Annis Chandler" fits almost exactly the profile provided and the findings in previous correspondence. Note the name is James Madison Chandler, not James Milton Chandler. DNA testing strongly suggested.
256	Vivian Ann Chandler (1917-1985) was the daughter of Ernest Matthew Chandler b 1894 in Ansted, WV, and Gladys Martin b 1896 Gatewood. Chandler is in both lines going back to Giles county VA. Gladys Martin's mother, Flora Vaught from Giles County, VA, was married to William Henry Martin on 10-11-1893 in Mercer County, WV. Her parents are buried in E. E. Cook cemetery (Spruce Run): Rufus Floyd Vaught (b 4-9-1842 d.2-24-1931) and Elizabeth Hannah Cook Vaught (b 12-6-1850 d. 12-21-1923). Rufus Floyd Vaught is the son of Levi Horsely Vaught and Lucinda CHANDLER Vaught.	No		<p>We provided a link for a Rootsweb post made by H. 	Ernest Matthew Chandler was the son of James M Chandler (born about 1861 in Giles County VA) and Leah A. Thompson. On the marriage record James' parents are listed as Green and Elisabeth Chandler.			All of the combined information seemed to support the enquirer's belief that she is descended from two lines of Chandlers which had a common ancestor. The combined information seemed to support this conclusion and further identified the probable ancestor as Jesse Chandler who probably died around 1829 in Franklin Co, VA. Links to the online information above were supplied to the enquirer and a suggestion was made for her to follow up with her own research to ascertain the facts.
257	Robert Chandler (1761-1831, served 6 years in the Continental Army) was adopted at 16 from unknown Chandlers in Woodstock, CT. Guardianship was awarded at reportedly age 15 to Jedediah Morse (grandfather of Samuel Morse) on 27 July 1776 by Charles Church Chandler, JP in Woodstock, Windham, CT. Robert stayed a year, enlisted in the Continental Army in 1777, and spent the winter in Valley Forge with Washington. He mustered out in 1783 on a medical discharge. He enlisted in the Army again for the War of 1812 as a surgeon and practiced medicine in Gibson, PA, dying there in 1831 and buried in an unmarked grave. In 2004 one of his descendants found him and got a proper marker erected. The DAR confirmed his service.	New	36	DNA testing matched Group 36, descendants of Robert S. Chandler, born Connecticut 1760, died Pennsylvania 1831. Inquirer and others have speculated that Robert was an unrecorded or even illegitimate child of John Chandler, the "Honest Tory," since the Guardianship agreement of July 1776, was shortly after John fled to Nova Scotia. John had perhaps as many as 17 children. In addition, Charles Church Chandler, Justice of the Peace handling the guardianship, was Mary Church Chandler's (second wife of Honest John) nephew, so a connection is possible. Or Robert could have been a favorite indentured servant of the John Chandler family who took the Chandler name. Inquirer plans to collaborate on a family story for the website for Group 36.
258	Joseph Winfield Chandler (born Newark, NJ, died 2003 at age 86). Father Joseph was a dentist in Newark and his uncle was Alfred, reputed to be the dentist to 3 presidents, Truman, Roosevelt and one other. Captain Alfred Chandler Jr. married Nancy Ann Wynn of the Wynn family in Las Vegas. Joseph's father's mother was Bessie Chandler, maiden name believed to be White.	New		We were able to take her lineage back to John W. Chandler who was born in England and immigrated in 1865. Both of his parents were born in England. Inquirer is currently searching for a suitable DNA subject.
259	Zachariah Chandler (Greenville, SC, and Caldwell County, KY) is in the 1790 census as head of household with five females. He and his one son and four daughters relocated to Caldwell County, KY, where he died in 1837. His first son was named Josiah, born approx. 1795. His second son by a second marriage to Elizabeth Boyd was Solomon King born in 1823. Census information indicates Zachariah was born between 1771 and 1775. There is a connection with the families of Timothy, son of Joel, and Solomon King, son of William H. Chandler. Inquirer believes Zachariah was the orphan of one of the casualties of the Revolutionary War at Fishing Creek, SC: Obediah born 1753 or Joseph born 1749, both sons of Joel. In the published information on these men killed in action, there were no spouses or children listed. No birth record can be found for Robert Chandler, probably born between 1765-1780 (he married in 1800). Lineage proposed by inquirer: Robert Chandler > John Chandler b Sept, 1806 in Claverdon, Warwickshire, England > William Chandler b May 24, 1840 in Alveston, Warwickshire, England > Henry Chandler b July 28, 1872 in Alveston, Warwickshire, England	No		Panel responded with a discussion of contacts in England in the same general area and a possible connection with DNA Group 8. Inquirer declined offer to be put in touch with Group 8 Chandlers in England.
266	Elizabeth Chandler b 1770 and Nancy Chandler b 1795 are both in inquirer's ancestry. <b>ELIZABETH CHANDLER</b> Elizabeth Chandler b ca 1770 perhaps in Halifax Co, VA, was the daughter of Robert Chandler and Mary Hamblin. Around 1790 she married Lt. John Yates, veteran of the Revolution, in Halifax Co., VA. Robert was the son of William Chandler and Elizabeth who left a will in Halifax Co., VA, and proven there May, 1779. Her daughter, Christinia Yates, married Rev. William Martin Brown. They lived their married life in Hart County, KY. <b>NANCY CHANDLER</b> Nancy Chandler was b ca 1795 perhaps in Halifax Co, Va. She married Peter Perkins there in 1818. They evidently remained in the VA and NC area until ca 1836 when they emigrated to KY and finally settled in Green County, KY, ca 1837 (listed in the 1850 Green County, KY, federal census). Nancy's lineage is unknown. She and Peter Perkins had the following children: Mariah, Elizabeth, William Jackson, Sarah B, Claiborne Chandler, Nancy, Martha Jane, Peter, John Bales, and George Perkins. These children were born either in Halifax or Caswell, VA; NC; or KY. Since Nancy Chandler and Peter Perkins named one of their sons Claiborne Chandler Perkins, there may be a connection	No		<p>CFALD has the spelling of Elizabeth's married surname as Yeates, as does Annamae Chandler. CFALD report on the descendants of John and Elizabeth Yeates was provided. Inquirer provided some information we did not have. As to the other Chandler line, we don't have Peter Perkins in CFALD or, apparently, his wife Nancy Chandler. We must remember that Nancy is a pet form of Ann, but that doesn't help here because we don't have a suitable Ann, Anne, Annie or Anna either. The name of Claiborne Chandler Perkins does seem a strong clue. CFALD has only the two children of Claiborne Chandler and Elizabeth Dodson (note spelling) - Judith born 1787 and Claiborne born 1793. It seems entirely possible that Claiborne and Elizabeth had other children. Claiborne had a younger sister Nancy born about 1770 so it is not inconceivable that one of those unrecorded children was your Nancy.</p> <p>We have not been able to locate a record of the marriage of Nancy Chandler to Peter Perkins in 1818. If you can provide a source for that, we would be willing to add them and all their descendants to the CFA Lineages Database, attributed to your research and showing a tentative, suitably annotated link of Nancy as a possible daughter of Claiborne and Elizabeth Dodson. If correct, this would mean that both your Chandler lines descend from John Chandler born 1600 in England who arrived in VA in 1610. Inquirer was put in touch with member with similar lineage.</p>

According to various US census records, her parents were either born in England or Spain	No		It is likely that Mary acquired the surname Chandler by marriage, though we are unable to trace that marriage, anywhere in the world. Both Linehan and Mal(l)oy are typically Irish surnames in origin, and Vallire is typically French, though Mary B Vallire was reportedly born in Madrid, Spain and Thomas Linehan in London, England. The place in North America where people of Irish and French origins are frequently found together is in Eastern Canada, and indeed the 1880 Census says James W Maloy was born in Nova Scotia. That Census shows James' widowed mother as Mary, whereas the 1865 marriage record has his mother as Susan Conley (another common Irish surname). Nova Scotia Vital Records <a href="https://novascotiagenealogy.com/">https://novascotiagenealogy.com/</a> has quite a few Linehans and Malloys, but none seem to relate to your folk. The 1850 Census of Cleveland Co, NC has Laban S Chandler aged 6 months born NC in the home of his parents John (a Millwright aged 36) and Frances (30) both born NC. The ancestors I have so far are: Possibly (but not sure) John Chandler (1801) married to Dinah (1796-1856) > Henry Chandler (1829) married to Sarah Gilbert (1827). Children: John (1855) Eliza (1857) Daniel (1861) Charles (1863) Fanny (1865) Kate (1867) John (1855) married Ann Alma Rushent (1857). The births may be a year out as they are from census forms. I am from England, and do not know whether any of my not yet discovered ancestors emigrated to the United States.	New		Henry Chandler who married Sarah Gilbert on 1 November 1851 at East Grafton was christened at Little Bedwyn on 30 April 1830, the son of Edward and Hannah. This would be the Edward Chandler who married Hannah Meadham of Little Bedwyn at Froxfield on 29 October 1821. Edward Chandler was christened at Collingbourne Kingston on 23 September 1800, recorded as the base born (i.e. illegitimate) son of Elizabeth Chandler. She may have been the Betty Chandler christened at CK on 15 December 1773, who was again the base born daughter of Mary Chandler. The name Mary occurs so frequently in the 18th Century that it is impossible to decide which is most likely Betty's mother. "Base born" was an unnecessarily harsh expression the church used at the time. We asked for details of descent from known Chandlers.

We could not locate in our database a William Chandler who died in SC in 1755. If William died in 1755 he couldn't be the father of Benjamin b 1796. We think your Benjamin is in the 1850 Census of District 10, Butler County, MO. He is 54, a farmer b SC, with wife Elma aged 33 b MO (looks like a second marriage), and children Noel (20) b SC; Perry (11); Wharton (9); and John (1) – all b MO. John looks like a child of the second marriage. Lee may have been aged 10 in the 1900 Census of Parker County. His birth is shown as Sept. 1889 (unlikely because his older brother Arthur shown as aged 11 was b in February 1889, so 1890 is a more likely birth year for Lee - though Find-A-Grave has it as 1891). Lee's parents are recorded as Henry aged 35, a farmer b MO whose parents were b in TN, and Katy aged 35 b MS, as were her parents. In 1900 they had had 7 children, all living. 286	Gabriel (or G.M.) Chandler, b NC 1836 of unknown parentage was my g-g-g-grandfather was. He appeared in Washington Co., IL, in 1858 when he married Nancy A. Thompson. His marriage certificate showed him as John G. F. M. Chandler. They resided Perry Co., IL 1860; Washington Co., IL 1870; and Marion Co., IL 1880, where he died 1883. There were a number of Chandler families in that region of IL but I haven't been able to connect them. So I'm looking for a NC Chandler family who gave complex names to their children.	No	7A	The person you are looking for may be Gabriel Chandler b 1839 in Surry Co, NC, shown aged 11 in the 1850 Census, the same age as his sister Catherine. The family is indexed by Ancestry as Chanler, and that is understandable because that's what the census sheet actually says. Also the census schedule shows the mother as Mary not May. Gabriel's parents were both b in NC, which accords with Gabriel's later census records. CFALD reports were sent showing that Gabriel is a descendant of John Chandler b 1600. We asked for a response to the theory that the Gabriel inquirer is searching for is the one we have on record in CFALD as b 1839 in NC, son of James Chandler b 1800. Inquirer responded that he believed Panel's information to be valid, and wrote, "Congratulations on a very well organized family association!"
287	Kate Chandler, b 1884, immigrated to Canada in 1907, where she married Charles Little. Charles immigrated from Inkpen, Berkshire, England, so am assuming that Kate came from the same area. Kate had a sister Lucy. Kate's parents were Albert and Emily Louise Chandler. This information was on the marriage certificate issued in Elgin, Ontario on October 17, 1907. I have been unable to find Albert and Emily Louise on any documents available on the internet. Kate is my husband's grandmother.	No		<p>Inkpen is near Hungerford in Berkshire, close to the county borders with Wiltshire and Hampshire. Although her parents took her to Hungerford at about the age of two, Louisa Kate was actually b in the Dover area, quite a distance away in the county of Kent. Her birth was registered at Dover in the second quarter of 1883. The births of her sisters Elizabeth Rebecca and Lucy Mabel were registered at Hungerford in Q1 1885 and Q4 1890 respectively. The reason for the relocation appears to be that their father Albert was a packer aged 37 on the Great Western Railway per the 1891 Census, when they were living at Park Street, Hungerford. Albert was b at Thatcham in Berkshire. His wife Emily Louisa (note spelling difference) was also aged 37 in 1891 - she was born in the part of London that then lay in the county of Surrey. Immediately adjacent to this family in 1891 was the household headed by widowed Lucy Chandler aged 49, a dressmaker born at Ham which is just over the county boundary in Wiltshire and very close to Inkpen.</p> <p>Albert and Emily Louisa BOTH came to the altar with the surname Chandler! Richard was a Railway Labourer born Waterperry in Oxfordshire, and she was born in Hurst, Berkshire. Albert's siblings were Timothy (14), Ann (10) and James (8), all born in Thatcham.</p> <p>In 1851 before Albert was born, Richard (33) was already in Thatcham and married to Rebecca (27), with an earlier batch of children - Hannah (11), Susannah (9), Jane (8), Emma (5) and at last a son George (4), then another daughter Margaret (1).</p> <p>I think that Richard (who would have been about 23 in 1841), is the Stone Mason recorded as aged 20 at St Mary Magdalen in the city of Oxford. The census states that Richard was NOT born in the county (Oxfordshire), though that is not necessarily accurate. I have been unable to locate a suitable baptism record for Richard. The Berkshire Family History Society has transcribed his marriage record from the registers of St Nicholas in Hurst, Berkshire, which you will recall was Rebecca's home town. Richard Chandler "of Hurst" a Labourer who was of full age, married Rebecca Brooker "of Hurst", a minor, on 26 January 1840. His father is named as Thomas and hers as William, both Labourers. In the 1851 Census of Hurst, there is a victualler named Thomas Chandler aged 63 and born at Mortimer in Berkshire. His wife was Mary aged 68 born Newington, Surrey.</p>

Is there any proof for Elisha and son, Joseph? If Simeon Chandler (b ca 1785 NC married Amelia) and Ezekiel Chandler (b ca 1791 VA married Susannah) are brothers, and are sons of Joseph b ca 1755, is there any proof for this? Also, from census entries it would appear they were born in different states. For Simeon I have these children:</p> <ul style="list-style-type: none"> <li>• Elizabeth b ca 1815 married Ninevah Gosnell (my direct line)</li> <li>• Simeon b ca 1816 married Melinda, my direct line</li> <li>• John b ca 1822 married</li> <li>• George Washington b ca 1824 marr Holly Chandler, d/o Ezekiel and Susannah Chandler.</li> </ul> <p>1830 Buncombe Co NC census shows Simeon with four sons and one daughter. Ezekiel Chandler shows first in 1820 Buncombe Co NC census, also in deeds and court records. I've found Simeon Chandler only in NC census records 1830-1850. I've not found him in Buncombe/Yancey Co deeds or court records. 1835 Poll Book NC 12th Congressional District does show a Simeon Chandler in Ivy District in Yancey Co. This could be Simeon b ca 1785 or his son, Simeon b ca 1816. Finally, does CFALD have anything on the Diana Chandler b ca 1760-1770 who shows on 1820 Buncombe Co census with 5 males and 2 females. These might be married children with spouses as 3 males are 16-26, as are 2 females. 1830 census shows only Diana, 60-70, with 1 F under 5, and 2 F 20-30. 1840 Yancey Co census does show Washington Chandler 20-30 as head of household with a female 70-80.</p>	Yes	7A	If the 1820 Census is accurate, Dianah would have been born between 1775 and 1794. CFALD has only one Diana who fits this, and she married Thomas Roberts in VA in 1792, so would appear as Diana Roberts if she appeared by name at all in 1820. It looks as Dianah was a widow with a child under 10 but there is no Chandler male who died in Buncombe or anywhere in NC between 1810 and 1820 in our database.

There is a family story about his mother being a German Countess who fled from the Nazis to the UK but I have no idea if it's true. I came across your website quite by accident but was very interested to see that there is such interest in the family name. I never met my grandfather as he divorced shortly after my mother was born, I did a bit of digging around recently and have a copy of his death certificate from 2004. I would be interested to find out about other lines of family members in the UK, Are you able to help with that sort of thing or point me in the right direction?			<p>Pansy was the daughter of Max Henry Brüning, a tailor's cutter born in Hanover, Germany, who was living in Leyton, Essex, in 1901. Pansy's mother was also born in Germany. Pansy was born in Leeds, Yorkshire; most of her siblings were born in the London area. Most of her family worked in tailoring. Geoffrey Allan Chandler was born in Leyton and his birth was registered at West Ham in the 4th quarter of 1893. His father was Horace Joseph Chandler whose birth was registered at Islington in the 1st quarter of 1858. Horace married Emma Elizabeth Hopping at St Mary the Virgin in Leyton on 8 March 1883. He was 25 and she was 21. His father was also named Horace and was also a clerk. In the 1901 Census, Horace Joseph is shown as a dock company clerk born Barnsbury, a district in Islington, London, and Emma's birthplace is shown as Bromley-by-Bow, London. As well as Geoffrey, they also had a son Arthur H Chandler who was 17 in 1901, a Shipping Clerk born at Leyton.</p> <p>Horace, the father of Horace Joseph, married Catharine Brockman in 1850 at Dover in Kent. Horace was born in Dover about 1826 and worked in some kind of surveying capacity for the GPO (General Post Office - who at that time provided postal and telephone services in Britain).</p> <p>In the 1841 Census, Horace is 15 and a Carpenter's Apprentice living at Charlton, a district of Dover, with his parents Joseph and Jane Chandler (57 and 53) and siblings Joseph (26), William (29), George (20), Samuel (19), Elizabeth (17) and Harriett (13). Joseph born about 1784 seems NOT to have been part of the large family of Dover Chandlers whose lineages we know.</p>

We have no John C Chandlers in CFALD of the necessary age, and no John Chandlers of the necessary age with Georgia connections. There is no suitable William J Chandler. 294	Myrtle Chandler Timerding (March 1893-Oct 1967 Cincinnati, OH) was my maternal grandmother. Her father, Charles P Chandler, was born in 1853 in Kanawha, WV. He died in November 933 and is buried in Highland Cemetery, Ft. Mitchell, KY. I am "stuck" discovering roots before 1846 when his mother, Charlotte Starke, married Joseph E Chandler in Kanawha in December of 1846. Joseph and his 3 children (Albert, Charles, and Ida) lived in Kanawha and he was a constable. There is a report that Charlotte's father, Robert Starke, died while visiting them in late 1850. The 1860 census has Charlotte and the 3 children living in Covington/Kenton County, KY, near Cincinnati where her son Charles later settled and married his first wife, Kate Cronin. Charlotte remarried by the 1870 census to a James McCord who became Charles Chandler's stepfather. The death certificate for Charles in 1933 states his father was James and not Joseph. My grandmother, Myrtle Chandler Timerding, supplied the information and perhaps did not know about Joseph. There is no death certificate in WV for Joseph Chandler, and I have been unsuccessful with KY or Ohio searches. There are several other mysteries – Charles Chandler is buried with his third wife and alongside several empty graves from the mid-thirties that were bought for Mary Chandler (my grandmother Myrtle's older sister) and a Sarah Chandler-whom I do not recognize through my research. Ernie O was specifically recorded as Sarah's son, presumably by a previous marriage, so it is likely that your friend will be carrying a Campbell Y-chromosome in his DNA, rather than Chandler. Of course, this genetic situation does not change at all the fact that your friend IS a Chandler - Ernie O adopted the Chandler surname and raised his children with that name. From a DNA viewpoint, by doing so he inaugurated a new genetic Chandler family. 				<p>he studied dentistry and followed that profession for 50 years. His father was named Jeremiah and I believe that he was a descendant of George and Jane Chandler who migrated from Wiltshire, England to Pennsylvania in 1687. That line is known as <a href="#">genetic Chandler family 7B</a>.</p> <p>Moving on to your line, George's father was named Jacob and George was born in Bridgewater. Examining the 1830 Census I can see that widow Margaret Chandler living in Bridgewater had a son in the 10-14 years age group, which would fit an 1816 birth for George (per his age in the 1850 census). Margaret is in the 50-59 age group, so Jacob would have been about the same age. There is a suitable family in the 1810 Census of Camillus, Onondaga Co, NY, headed by Jacob, next door to another Chandler family headed by Absalom - possibly brothers to judge by their age ranges. The New FamilySearch system has Abram Chandler who married Sarah in 1775 in Goshen, Orange Co, NY as the father of Absalom, so he may have been the father of Jacob, too. Some online trees place Abram and Sarah Chandler as the parents of Jacob 1765-1820, Isaac 1770-1820, Benoni born 1773 and Absalom 1776-1856. It would be very exciting to get a DNA test done by a descendant of this line.</p>

From the 1920 Census we see that the parents of your grandfather Elmer born CT 1912 were recorded as Olcott E and Augusta. (The name Augusta may be a census-taker's error.) Olcott E was a sailor aboard the USS Georgia in 1910 when he gave his birth year as 1885 in Massachusetts, whereas in the 1920 census he says he was born in 1892 in CT. The records state that Olcott was the son of Jerusha Terry of Enfield, but not the son of Isaac Chandler 1783-1831 who had married Jerusha and had four daughters with her commencing in 1818. Isaac died on 4 August 1831 aged 48 - two years after Olcott was born, when Jerusha was probably in her early forties. Isaac's father (Lt) David Chandler 1747-1816 married Miriam Simonds. David was a farmer on land owned by his grandfather Henry in the north of Enfield. He was highway surveyor in 1773. In 1779 he was one of the committee of the town to purchase clothing for soldiers and to look after their families while the husbands and fathers were absent. In the 1780s he was a member of the school committee and a juryman. In 1804 he was inspector of tobacco. He died in Enfield in 1816 aged 69.</p> <p>David's father was Isaac 1717-1787 who married Abigail Hale. Isaac's father was Henry 1667-1737 who married Lydia Abbot. In 1695 the town of Enfield granted Henry and his brother Joseph the right to establish a saw mill on the Cochickewick River. He inherited half of his father's homestead in 1703 and in 1723 bought 1700 acres on the banks of the Connecticut River lived for the rest of his life. Henry and Lydia had 13 children and 99 known grandchildren.</p> <p>Henry's father was (Captain) Thomas 1628-1703 who married Hannah Brewer. He came to Massachusetts with his parents at age about 7. He was one of the proprietors and early pioneers in the settlement of Andover. The Andover historian wrote "T.C. was a blacksmith, ultimately a rich man, carrying on a considerable iron works."</p> <p>Henry's father was William Chandler who married second wife Annis Bayford (not Alcock as many have incorrectly recorded) and settled in Roxbury in 1637, bringing four children with them from England.</p> <p>Of course, the "hiccup" I refer to above does not change the fact that you are a Chandler. Olcott is an unusual given name. It might indicate the surname of his father. Indeed, the 1820 Census shows that there were no less than 19 households in Hartford County, CT, headed by a man surnamed Olcott, implying that there were probably around 50 Olcott men in the county who could have fathered Jerusha's son. A Y-chromosome DNA test might confirm or refute this as a possible male ancestral surname. It might even prove the records wrong and show a Chandler profile.</p>

	<p>parents were Wilson Park (1775-1812) and Hannah Milligan. They were married in 1799. Wilson came from NC and died in Jackson Co. GA. Baptist and Fanny had at least one daughter, Frances Virginia Park born 3 Oct 1826 in Jackson Co. and died 29 Oct 1903 in Red River Co., TX. She married Doc Singleton Kerbo about 1852. He was born in Jul 1823 and died at Gettysburg on 3 Jul 1863. After his death, she came to Texas with two bothers-in-law. My father was their great grandson.</p> <p>Response from inquirer: Inquirer responded: Thank you so much for finding (or not finding) a possible trail to my ancestor Fanny Chandler Park(s). I had not been able to connect her to Parks and one of his wives, Massa or Elizabeth "Betsy." Frances (Fanny) and Baptist Park were married 27 Feb 1821 in Jackson Co. (or my research showed from the Park side of the family), but I was never able to document this marriage in Jackson County. Baptist and his parents Wilson and Hannah Mulligan came from NC, but when I do not know. If only I can find Fanny's parents for sure. Then I could possibly hook her to the John Chandler line."</p>			<p>have her aged 20 and 30, suggesting an 1830 birth, and the 1900 census has her born October 1828. We assume you have something which evidences 3 October 1826. The 1850 Census suggests that Martha M Park born 1828 who married James Wright was also a daughter of Baptist and Fanny.</p> <p>We were hoping that the book "Cemetery Records of Jackson County, Georgia" might provide some clues, but we did not find Fanny there. We also looked for clues to see if Frances might have been a hitherto-unknown daughter of Parks and Massa Chandler or his second wife Elizabeth "Betsy" Barker. Parks died in Jackson County. More disappointment! This does, however, remain a possibility. We feel that the most likely parentage of Fanny is as the first child of Parks and Betsy Barker Chandler or the last child of Parks and his first wife named Massa. Have you considered this possibility previously? The ancestry of Parks involves descent from John Chandler born in England in 1600 who migrated to VA in 1610. That line goes John &gt; Robert &gt; Robert &gt; Joell &gt; Robert &gt; Parks." We have added Fanny to Parks' family in the CFA Lineages Database (CFALD), with a question mark about her entry, and explanatory notes in the record.</p>
302	Ephraim Chandler was baptised 16th October 1822 at Lympsham, Somerset, the son of Patience Chandler, single woman. He is quite a tragic Chandler link within my family tree and I would welcome any further information you have. At the age of about 9 he was apprenticed by the Worle overseers to a farmer, and later to a tiler and plasterer. At 21 he ended his apprenticeship and went to work for the same tiler & plasterer in the town of Weston Super Mare. In 1844 he married Emma Binding in Weston Super Mare. In April 1846, in poor health, he was the subject of an order of removal, whereby the overseers of Worle parish (where Emma had relations) tried to remove him, his wife and infant son Henry, back to Weston Super Mare, but this may have been unsuccessful as he died at Worle in September 1846, aged 24. His widow had just given birth to another child, Jane. I can trace Emma's life subsequently, and I know that the infant Jane died in Weston Super Mare in 1847. Henry Chandler, born 29 October 1844, can be found on the 1861 census (Weston Super Mare, a labourer still living with his mother and stepfather), but despite several years of searching I have	No		<p>We think we have located your Patience Chandler. According to the National Burial Index, a Patience Chandler aged 59 was buried in April 1848 at St John the Baptist in Churchill. This is confirmed by a death registration at Axbridge in Q2 1848. This Patience would have been born about 1789 and, if she was Patience Vater, she would have been 28 on marriage in 1817. This might give an indication of the birth date of John Chandler - perhaps 1787. If John and Patience Chandler were the parents of Ephraim, why was Patience shown as a single woman at Ephraim's baptism? Even if her husband John had died by then, she should have been shown as a widow. Research notes:</p> <ol style="list-style-type: none"> <li>1. The National Burial Index has a William Chandler aged 23 buried 17 September 1846 at Worle St Martin. There was no death of a William Chandler registered at Axbridge in Q3 or Q4 1846. 303	Captain Joshua L. Chandler, buried at the end of main street in Chincoteague, VA, is as far as I can go back. I have heard the name James mentioned as his father but I'm not sure if that is right. This is quite a large group of Chandlers, and I'm wondering why we don't hear from more of them. My dad, Asa Neal Chandler, died September, 1938, so I didn't learn much about his family. His dad was William. He had a brother Ebe in DE and Joshua L. was their father William & wife Sara Benson Chandler had 7 children. My father's family was from Chincoteague, VA, and before that Dagsboro, DE. Lineage from inquirer: Captain Joshua L. Inquirer's brother has tested into Genetic Family #22, descendants of John Chandler of Accomack County, VA, born 1650, probably in England and probably the founder of the Eastern Shore Chandlers on the DelMarVa peninsula. Inquirer is delighted with this result, not least because it bears out her research of many years.
304	Henry John Rogers (born 1872 Avebury) was my grandfather. His parents were Henry John Rogers (born 1850 Marlborough, Wiltshire) and Sabrina Chandler (born 1847 in Avebury, Wiltshire). Sabrina's father was Joseph Chandler (born circa 1810 in Avebury). His Mother was Sarah Chandler. Sadly that is all the information I have, they are proving very stubborn and difficult to find.	New		The wife of Henry John Rogers was born and married with the name Sabina, omitting the "r". Her birth was registered at Marlborough in the 3rd quarter of 1847, and her christening at Avebury on 15 August 1847. Her marriage as Sabina was registered at Marlborough in the first quarter of 1871. According to the 1851 Census, her parents Joseph and Mary were both born in Beckhampton, on the outskirts of Avebury, in 1811 and 1813 respectively. From the ages of the children in 1841 and 1851, they were married about 1838/9. Assuming that Joseph and Mary married and that their marriage was properly registered, they were probably the Joseph Chandler and Mary Pearce whose marriage was registered at Malmesbury in the first quarter of 1838. That suggests Mary was not in fact born at Beckhampton, probably one

The deaths of Ellen, Rachel or William are not registered at Marlborough in the intervening 10 years. Ellen is aged 12 in the 1851 Census, living in Beckhampton with her pauper aunt, Sarah Gregory, a widow aged 67. Also in the household is another sibling of Sabina, Eli aged 7. The sibling living with Sabina (aged 3) and her parents in 1851 were Rebecca (10), George (9), Henry (8), Stephen (6), James (2) and infant Dinah.</p> <p>We don't know which Sarah Chandler was the (almost certainly unmarried) mother of Joseph. There are a number of possibles. It might be Sarah King Chandler christened at Swindon on 23 May 1787. The name King may be a clue to the name of Joseph's father. Her mother appears to be Ann, who also seems to be an unmarried mother. Perhaps Sarah Chandler married sometime after giving birth to Joseph in 1810 and became Sarah Gregory, widowed by 1851 and known to Joseph's children as Aunt Sarah though in fact their grandmother?</p>

He married Mary Evans aged 20, daughter of John Evans, at Dronfield on 2 April 1877 when he was almost 24. Your great grandmother Ada, born at Dronfield in the 4th quarter of 1878, had a brother John William Chandler born in 1880. George was the son of John Chandler and Ann Armston. John was born at Huncote on 21 November 1819 and married Ann on 5 July 1846 at Huncote. John died in Leicester on 16 December 1899. John was the son of William Chandler and Mary Harris-Shaw. William was born Narborough in May 1799. William and Mary married in April 1819 at Thurlaston. They died in 1876 and 1877 respectively. William was the son of Richard Chandler and Mary Bamford. Richard was born on 3 January 1775 at Thurlaston and married Mary on 20 February 1796 at Narborough. He died about 1834 in Narborough. Richard was the son of Edward Chandler and Latitia Strong, and this is the point at which your lineage converges with Tony Chandler's, detailed on our website. Abraham shows in more than one census that his father is from TN, Mother from NC. The KY census of 1870 for John M Chandler shows an Elizabeth Chandler listed in the next household, born NC age 71. My husband's family remained in KY until his family line ended up here in OH.</p>			<p>birth of William, the son of William born 1805 and presumed 2nd wife Nancy Woods. William born 1850 is also credited with a wife named Nancy, which could be true or might prove to be confusion between the two generations of Williams. William born 1805 had four sisters but only the two brothers mentioned above. 307	Lance Chandler born in New Zealand whose parents were English is my adopted son's natural father. My son would like me to research his ancestors.	No		We know of only one Lance Chandler born in New Zealand, but it was his great grandparents, not his parents, who were born in England. The privacy of living people is carefully protected by New Zealand law. This does not make genealogy impossible, but it does make recent family history much more difficult. As far as I can tell, the Lance Chandler we know of would have been born around 1960, and it appears that he was the son of a Daphne Chandler.

In 1940 they had two children, Raymond born 1933 and Doris born 1937. Do either of these children sound like one of your parents?</p> <p>There is a birth record in an index at Ancestry.com showing that Lucille Chandler was born in Kern County, California, on 7 September 1930 and that her mother's maiden name was Turkington. The father's name is not shown in any of these index records at Ancestry. We can find no suitable records at all relating to Clara Turkington or Harry F Chandler in California. There is a record showing Raymond Lee Chandler born 7 June 1932 in Orange County, CA, and another for Doris Marie Chandler born 27 August 1936 in San Bernardino County, CA, both with Turkington as the mother's maiden name. Using that information, we found Harry, Clara, Raymond and Doris in the 1940 Census at Oro Grande in San Bernardino County. Clara, not Harry, is shown as the owner of a poultry farm - Harry is recorded as unable to work. Harry was born in Iowa in 1889 and Clara in Texas in 1894. He was aged 9, born Iowa. His father was Thomas Chandler aged 44, a farmer born Ohio, and his mother was Arabella A., aged 40 born New York. His siblings at that time were Lucy A (19 born Wisconsin), Emily A (15 born Wisconsin) and Laura I (3 born Iowa).</p> <p>In the 1850 Census of Grant County, Wisconsin, Thomas Chandler aged 25 was recorded as a carpenter born Ohio, and his wife is Almira A., aged 21 born New York. A biographical sketch suggests that James was one of ten children, but they were not found, nor was their prior line who came via VA to NC, into Hardin, McNairy and Hardeman Co., TN." Her footnote for that biographical sketch reads "Hardeman Co. TN Historical Sketches (Bolivar TN: HCHist.Com., 1979) p98." Annamae's book does not therefore identify the antecedents of James B or clarify what the B stands for. He is James E in the 1860 AR Census and just James in 1850, and the TN State marriage index only has him as James B (James Ben Chandler in that index is the 1897 marriage to Tillie Sanders.) It seems clear that his father's name was William H and that this was William Hutson who married Mary Elizabeth Blount in August 1839. Annamae has James Hudson Chandler for the boy born 1876 and died 1886. We can't provide any evidence about the parentage of William H. DNA testing was suggested.

(DNA can only disprove a lineage, never positively prove one to be true.)"</p> <p>"As I mentioned, I have checked as far as Benjamin #155. There is no doubt that William #44 had a son Benjamin born in 1718 in Billerica, before he moved his family to Westford. Benjamin was entered again in the birth records of Westford as just "1718" without the month and day. Also, Benjamin's marriage to Hannah Dutton is found in the Westford VRs (1743), but he clearly moved away soon after, since there is no further mention of Benjamin or Hannah in Westford. The fact that a Benjamin and Hannah showed up in Petersham the next year (or at least a Benjamin, who eventually had a wife named Hannah who died there in 1777), coupled with the fact that Benjamin's gravestone in Petersham says he was born c1718, strongly suggests that he's the same one born in Billerica. I think the book is erring on the side of caution here."</p>

Panel reported on Confederate pension records; an online e-book, "History of Scott County, Arkansas;" and Brasher burials from Find-A-Grave. Online records show the following were residents of Greenville County, SC, as early as the late 1700s/early 1800s: Baylis Earle, Aquilla Brasher and Hiram Brasher. Several Chandler families were also residents of Greenville County, SC, during this same time. Census records from Greenville, SC, in 1790,

Links were provided to SC government websites with research possibilities for land documents and probate records. None of the above is conclusive proof that inquirer's Chandlers and Brashers were directly related to those of Greenville, SC. Nor is it conclusive proof that either family was related to the Earles of that place. The existence of some of the same family names (Baylis Earle, Aquilla Brasher, Hiram Brasher) in both places does warrant further research of that possibility.
321	Inquirer recently took a DNA test and is confused on how to find and read the results.	New	34	We were expecting your DNA to match the many descendants of John Chandler born England in 1600 whose DNA has been tested. Instead, your DNA matches a small group which we call #34. There are six participants in this group, but two of them are brothers, who one would usually expect to have matching DNA, so they really only count as one. All of them believed themselves to be descendants of 1600 John via Joel Chandler born 1740. Three of them, including you, claim descent from Joel's son John B Chandler born 1775. The other two, from John B's older brother Robert born 1773. We have other descendants of Joel born 1740 who do test match to Group #7A, so it seems that your John B (and his brother Robert) were the sons of someone else, possibly a different Joel. You know that we already have two VA Joels in the first half of the 18th Century - the one mentioned above, born 1740 son of Joell, and the other born 1726 son of Joseph. So perhaps there was a third Joel? Panel and other researchers provided advice, thoughts and alternate theories on the reasons behind the DNA mis-match.

Evelyn married Jack Southwell Russell 25th Baron de Clifford, then Arthur Roy Stack, then later George Vernon Tate. Her sister Gladys was married to Christopher Humprey Tancred.	No		We have these two sisters in our records. The birth of Evelyn Chandler Victoria A Chandler was registered at Lambeth in Q2 1887 and her marriage to Lord Jack S R de Clifford was registered at Pancras in Q1 1906. The birth of her sister Gladys Winifred Chandler was registered in Westminster in Q4 1889 and her marriage to Christopher H Tancred was registered at Paddington in Q1 1915. This Chandler family became known as Carrington. Their father, a Messenger and Hall Porter, who later called himself Walter Robert Carrington, was born Walter Robert Chandler in Q4 1853 and registered at St George Hanover Square, and his marriage as a Chandler to Louisa Brown was registered at Westminster in Q2 1885. It is believed that Walter was born in Q4 1853, birth registered at St George Hanover Square, and that he was the son of Lodging House Keeper Robert F Chandler (born Bradenham, Norfolk, about 1823) and his wife Ann born Dunmow Essex (of Dunmow fitch fame) about 1819. Robert was married as Robert Forty (probably Forby) Chandler in Q2 1845 registered at St James'

As well as son Walter Robert, Robert F and Ann had a daughter named Louisa Ellenor born in Q4 1857 who became a music teacher. The new FamilySearch system has the christening of Robert Forby Chandler, son of Robert and Ellen Chandler, on 16 December 1822 at West Bradenham. We were unable to get to the bottom of why Walter Robert abandoned the surname Chandler and adopted the name Carrington, but surmise that he had a rather "nobby" job and thought that Carrington sounded more aristocratic than Chandler. There is a short bio of Eva Carrington at <a href="http://www.stagebeauty.net/th-frames.html?http&amp;&amp;&amp;www.stagebeauty.net/carrington/carrington-e.html">http://www.stagebeauty.net/th-frames.html?http&amp;&amp;&amp;www.stagebeauty.net/carrington/carrington-e.html</a>.</p>
323	<p>Lewis Thomas Llewellyn, born March 11, 1886, either Maryland or Pennsylvania, was the son of Louis (aka Lewis) Llewellyn and Emma Virginia Chandler. I know Chandler is a family name, as it is all over my baby book's family tree. But my mother—an only child, who was 16 when her father died—does not have much information about her relatives. When she was growing up she lived with an aunt, Mary Llewellyn. The site my sister found--Rowley and Langrell Family Charts--does not list Mary as a child of Louis and Emma, but it does list Chandler (born October 1875) and Lewis (March 1886) as children.</p> <p>Additional information from inquirer: My mother's parents were Lewis Thomas Llewellyn and Emily Buehler Llewellyn. (I know my grandfather was married before he married my grandmother, but all I know about his first wife is that her first name was Bertha and that she died, perhaps in childbirth. I don't even know if the child survived.) Lewis's parents were Reverend Lewis Llewellyn and Emma Chandler Llewellyn. Emma's parents were Reverend Hartwell Chandler and Martha Hendren Chandler. Downing Hendren (my mother records him as my great-great-great-great grandfather) was a soldier in the Revolutionary Army. His son, Jeremiah, was a major in the Confederate Army. Hartwell Chandler preached for two years in Norfolk during the Civil War (Baptist). I think Aunt Mary that lived with my mother and her parents was my grandfather's sister, or Mary Llewellyn. It might have</p>	New		<p>Llewellyn - with two sets of double Ls - is Welsh in origin. The first Ll--- is pronounced like Thl so the Welsh say it as Thlewellyn. Because of their ages, it is vital to find Anne's grandparents in the 1900 US Census. This proved difficult. I finally found them recorded, with scrawled handwriting, as Luellen living in Winfield, Butler Co, PA. Louis was born in April 1845 in England, of English parents. His occupation appears to be "Reverant", so presumably a minister. 1869 was his year of immigration, and he is recorded as having been in the US 40 years. That could mean that he was in the US for 10 years before he was naturalized, or that the census enumerator's arithmetic was as bad as his spelling and handwriting. Emma was born in MD in May 1842 of Virginian parents, and she and Louis had been married for 27 years, having 6 children of whom 3 were alive in 1900. The three children were Chandler "Luellen" aged 24, Mary 20 and Louis 14, all born in Maryland. Also present was Mary Chandler, the aunt to whom Anne referred, sister-in-law of Louis, aged 60 so born 1840 in VA of Virginian parents. Aunt Mary was apparently divorced. The closest match to Louis born England in April 1845 is Lewis Llewellyn whose birth was registered at Merthyr Tydfil (which is in Wales, not England) in the first quarter of 1846. With regard to Louis' wife Emma, there are 3 possible Emma Chandlers born in Maryland around 1842, but the only one with Virginian parents was the daughter of Rev H J Chandler, a Baptist clergyman born VA in 1816 and his wife Martha A G Chandler born VA in 1822.</p> <p>Conclusion: Aunt Mary in the 1900 Census living with the "Luellen" family in Winfield, Butler Co, PA was definitely surnamed Chandler. Bertha, who your grandfather married first, was Bertha Margaret Price (another Welsh name) born 19 February</p>

Per the 1920 Census of Polk County, IA their children were Floyd born 1917 and Marvin born 1918, both in IA. Bertha's parents were James (sometimes shown as John H) Price, a farmer born 1855 in Wales, and Annie formerly Evans (yet another Welsh name) born 1858 in Wales. Bertha's siblings were Osker (Oscar?) born 1878, Nellie (1882), David (1883), Marnie? (1886) and Winnie (1888). Per the 1940 Census of Saginaw, Saginaw Co, Michigan, your mother was born in Michigan. Your grandfather Lewis Thomas Llewellyn was born in Pennsylvania in 1886 and naturalized in November 1892, and your grandmother Emily was born in PA in 1892. The H J Chandler found in the 1850 Census seems to be Hartwell Jefferson Chandler, about whom there was a CFA query by Mary Llewellyn in 2008. This Mary Llewellyn (of CT) also posted an inquiry about HJC on the Chandler message board at Ancestry. A response she received indicated that Joel was Hartwell's brother. We have Frederick and Isabel (Seamster), referenced in the 2008 query, in the CFA Lineages Database (CFALD). Their children include Hartwell and Joel. I have some database corrections to make in the case of this family. However, it does appear that Hartwell's family descends from John Chandler born in England in 1600 who migrated to VA in 1610, genetic family 7A. Mary Llewellyn also appears to be the owner of the Llewellyn and Chapman family tree at Ancestry.com which contains a comprehensive entry about Hartwell and his career. We recommend that you get in touch with Mary Llewellyn. We have two other members who may have information about the Chandlers in this family. We found some information about Rev. H.J. Chandler of Bedford Street Baptist Church in Cumberland, MD, in a book at Ancestry.com: Scharf, Thomas J., "History of Western Maryland, Vol. II." In the section on Allegany County, MD, Religious Denominations, Baptist Church, pp. 1416-1417 it says that he was a missionary (doesn't say where from) who arrived in the city of Cumberland in 1871 and revived the ailing church which had all but disbanded. He was also a co-organizer of the Ebenezer Baptist Church in Cumberland in 1875 but never served as a pastor there. He was pastor of Bedford Street from 1871 until 1880 when he was succeeded by the Rev. E. B. Watts.

The reason for elopement in this case turned out to be that the marriage would have been proscribed by the Church of England at that time, because Sophia was the sister of her would-be husband's deceased wife, and that was not allowed in England between 1560 and 1907. How sure are you that your Ann Chandler was from the same family as the Chandler ladies who married Joseph Brittan?</p>

329	Thomas Chandler born about 1796 in Herne, England – who were his parents?	No		We have Thomas Chandler christened at Herne, Kent on 11 October 1795, son of Richard and Sarah Chandler. We also have a John Chandler christening on 8 April 1798 at Chislet, near Herne Common, with the same parents. Unfortunately we don't know any more about Richard and Sarah, but at least you now know the names of Thomas' parents and the date of his christening. The birthplace of his wife Frances was Doddington. The "unknown spouse" of Stephen Pilcher in Q4 1853 was the lady you mentioned, Margaret Parish. The marriage of Herbert Pilcher Chandler to Bessie Willis was registered at Basingstoke in the 2nd quarter of 1893. The birth of Frederick (note spelling) William Chandler was registered at Headington in the 3rd quarter of 1899. The lady Alfred Chandler married at Iffley on 8 September 1932 was Violet Josephine May Clarke. Re James William Lowe, the town in County Durham is spelt Bishop Auckland. . . although I have searched the records of the area thoroughly, I cannot trace the marriage of Richard and Sarah about 1790, nor can I see a suitable Richard christening in the area.
330	Anne Chandler married John Cork(e) in West Bradenham, Norfolk, England, on 3/10/1704. Do you have any details of this ancestor?	No		The best bet for the Anne Chandler who married John Cork(e) in West Bradenham, Norfolk on 3 October 1704 is the Anne Chaundler, daughter of Francis Chaundler, christened about 12 miles away in Oxborough, Norfolk on 4 December 1690. By current standards, Anne would have been young to marry in 1704. However, the minimum age for marriage at that time was 14 for males and 12 for females. Marriages at younger ages than that were not uncommon.
331	John Chandler (1819-1881) married Hannah Tack 11 Oct 1842 Papworth St. Agnes, Cambridgeshire, England. On that record he gave his father's name as John Chandler. Cousins tell me that his father is really William Chandler who married Ann Dickenson 12 Oct 1808 in Godmanchester, Hunts, England.	No		There was a similar enquiry in 1992, in which the enquirer believed that her ancestor Elizabeth Chandler born 1808/9 was the daughter of William and Ann christened at Godmanchester on 25 December 1809. However, at her marriage in 1855, Elizabeth stated her father as John Chandler. Record availability has improved in the last 20 years, but still not sufficient to provide a definitive answer. Inquirer was urged to not be discouraged since she has hard evidence of her claim, apparently contributed by the man in question (although we must recognize that mistakes can be made).
